THE ALLEGAN NURSERY

ALLEGAN, MICHIGAN

"VICTORY PLANTS," the Prestage Strain of Michigan - grown Nursery Stock

TO THE PUBLIC AND OUR OLD AND OUR NEW CUSTOMERS

It is with much pleasure that we say to you that our **VICTORY PLANTS**, trees, vines, shrubs, and flowers must please our customers. For a good many years we have been putting out a common sense catalogue. Our customers say to us "We look at the other fellow's pictures, but buy our plants, trees, shrubs, and vines of The Allegan Nursery."

We could write a fine large catalogue and have big red pictures, and say just as much about our plants as the other fellow. Yet all this costs, and someone pays for it.—He who buys the plants. And all this Brag, and Blow, and red ink would make our plants no better.

Yes, the make up of our price list is unpretentious, but we have as much to sell as the fellow that pays the printer for a costly catalogue. The proof of this is: Our Business grows each year. We thank our old customers—invite new ones and guarantee you all satisfaction. **VICTORY PLANTS** must please you.

SUBSTITUTING—We do not aim to substitute without your permission. So please signify to that effect on your order sheet. When the matter is not mentioned we construe that as giving consent for us to substitute. When possible please give us the right to substitute, or give second choice this year, as some varieties are short owing to the season. It is always our aim to please our customers, and in ninety-nine per cent of cases we do so.

GREATLY REDUCED PRICES

You can this year buy our guaranteed healthy, vigorous, and productive **VICTORY PLANTS** for the same prices usually charged for plants of uncertain quality and productiveness. Favored with a splendid growing season this, together with our enormous production, has lowered the initial cost per thousand plants. The benefits of this great saving are yours if you buy **VICTORY PLANTS** at our reduced prices. Plant the **BEST** and be certain beyond a doubt that the firm to whom you entrusted your order can and will provide you with such stock.

Express is the general way of shipping plants. Customers pay all express charges unless by agreement.

We can't afford to accept orders for less than \$1.00. Bookkeeping costs too much.

Parcel Post is many times cheaper and always more convenient, especially for people that live out of town, or in busy times, as plants are delivered to your door. Fifty pounds go any where by post. Seventy pounds are permissible in first three zones. We have tried all kinds of tables and charges and plans for careful handling of Parcel Post shipments and after all is said, done, and experienced we find that the best way is to send your plants, trees, vines or whatever you want prepaid and let you return the postage to us, usually C. O. D. This costs just a few cents more but it avoids time, trouble, and is accurate. Plants, trees and vines vary so that no set or definite scale is just to everyone and to ourselves.

GLADIOLI

Gladioli are the most imposing, most gorgeous, most attractive, and most profuse blooming of the summer flowering bulbs. Most truly are they "The People's Flower." Easy to grow, in most any soil or climate. They begin to bloom early and continue until frost. The cost of securing a few Gladioli is small compared to their real value.

You will see so many offers advertised this year 50 for \$1, 100 for \$1 and maybe some will offer you a dollar to come and get them. But the price usually determines the quality. Many causes and conditions enter to help determine healthy satisfactory bulbs from those that are not. We can meet any competition, but don't look for the cheapest. We offer bulbs in three sizes in dozen, 25, 50 and 100 lots.

America—Lavender, pink.
Anna Eberius—Maroon, red.
Arizona Rose—Crimson, rose, pink.
Baron Hulst—Violet, blue.
Chateau Thierry—Scarlet, red.
Chicago—Pure white.
Empress of India—Darkest wine red.
Evelyn Kirtland—Geranium pink.
Flora—Naphthaline yellow.
Fire King—Scarlet red.
Glory of Holland—Cream white.
Gretchen Zang—Shaded pink.
Halley—Geranium glow.
Herada—Wagenta pink.
Joe Coleman—Dark rose.
Louise—Lavender.
Le Marschal Foch—Flesh pink.
Mrs. Frank Pendleton—Rose pink, blotch in throat.
Mrs. Francis King—Jasper red.
Mrs. Dr. Norton—Carmine and pink.
Master Weitzel—Maroon shaded.
Mrs. Watt—Blood red and crimson.
Niagara—Ruffled yellow.
Panama—Pale vinaceous pink.
Peace—White, colored throat.
Prince of Wales—Strawberry pink, shaded pale.
Pink Perfection—Reddish cream pink.
Purity—Purest white.
Schwaben—Sulphur yellow.
1910 Rose—Deep rose.
Willie Wigman—Inviting rose red.
Wilbrink—Pale livid scarlet.
Large size—10c each, 3 for 25c, 12 for \$1.00, 25 for \$1.75, 50 for \$2.75, 100 for \$5.00.
Medium size—4 for 25c, 12 for 75c, 25 for \$1.25, 50 for \$2.00, 100 for \$3.00.
Smaller Blooming Size—12 for 50c, 25 for 75c, 50 for \$1.25, 100 for \$2.00.
Mixed Gladioli—Many people are averse to bothering with named Gladioli, preferring to get a good selection of mixed colors. I keep my mixture full of new sorts and find that they all will please you. There are the colors and varieties given above in mixture, but I in no way guarantee colors nor variety in mixed lots; but I am sure you will be pleased. This is our special. 15 for 50c, 35 for \$1. 100 of a different size for \$1.00.

SO ON ALL ORDERS BY PARCEL POST SHIPMENT DEDUCT 10c FROM VALUE OF ORDER AND WE WILL SEND POST PAID CHARGES COLLECT. IN THIS WAY WE STAND EXTRA EXPENSE, THERE IS NO DELAY AND EVERY THING IS CORRECT.

Customer pays all delivery charges whether post or express. This is the only fair way. Our prices are not deceiving and are very reasonable, quality considered.

Prices are subject to change without notice. No changes on accepted orders.

Every order of \$3.00 or over that we send out has worth while extras in it. Grapes, Spirea, or something.

STRAWBERRY PLANTS

(S.) and (P.) Varieties—Varieties of Strawberries marked (P.) are pistillate, or imperfect blossoms and need be set near (live to fifteen feet) to some variety marked (S.) which has staminate or perfect blossoms. The staminate varieties have pollen to spare, and thus pollinize the imperfect blossoms and insure a good crop. Varieties marked (S.) need not have (P.) varieties near them, but (P.) varieties must be pollinized by staminate.

We believe we grow the best strawberry plants grown in Michigan. We clean them well, pack them well, and they always please.

Fall Bearing Varieties—So much has been said and written about them that the following is enough to be said here. I have grown them ten years. They are a decided success. This wonderful new race of strawberries has come to stay, and are appreciated more and more as they are grown each year. They require rich soil and good care. I offer you only the best varieties. I have tried nearly everything offered as new varieties and find that there are too many trying to give new names to something that is already well known. You will make a mistake if you do not set some of the Everbearing or fall bearing.

Progressive Everbearing—This is the leading sort of fall bearer. A strong, thrifty, grower of luxuriant vines, healthy, being entirely free from disease. The berries somewhat resemble Senator Dunlap in shape, size, flavor, and productiveness.

Champion Everbearing—This new everbearer was introduced about six years ago since which time it has been quite extensively planted by fruitgrowers in southern Michigan.

STANDARD JUNE BEARING VARIETIES

Aroma (S)—One of the finest late strawberries and the only late one grown in many parts of the country. The blossoms are perfect and very rich in pollen, making it good to plant with Sample, Haverland, Kellogg's Prize, and other fancy pistillate varieties. The berries are large in size, rich in color, and deliciously aromatic in flavor. They have handsome green caps which make the fruit show up exceptionally good in the package. The berries are firm in texture and solid enough to make an excellent shipping berry. Sells with the best.

Big Late S—Same as Big Joe or Joe Johnson. Our stock was secured from the introducer, so we have them absolutely true to name. We fruited it last year and think so well of it that we intend to plant it largely for fruit. The berries are superfine in quality, conical in shape, large in size, and are bright, glossy red in color. They are firm enough to ship and handsome enough to command top prices.

Warfield (P)—This is the grand berry for main crop, both for home use and market. I recommend Warfield fertilized with Senator Dunlap for most profitable strawberry crop you can grow if you have a good market for medium early berries. Warfield is, and has been for years, the leading canning berry. Fruit is regular in shape, dark red, and a splendid shipper. Best seller of all except Senator Dunlap. Medium early.

Cooper (S)—One of the largest grown. Large healthy foliage. Berries of best color, flavor and productiveness. New and being heavily planted. A strictly fancy berry.

Can furnish—Dr. Burrell (S), Haverland (P), Gandy (S), Brandywine and others. Write.

Uncle Jim (or Dornan) (S)—One of the very best of the newer varieties; vines are vigorous and healthy, fruit large and captivating, but possesses best berry qualities; medium to late. It is a general favorite for a fancy market, liked by everyone, and will make you money. Needs rich soil. We find it same as Corsican. It gets the fine trade. Large. Originated near Allegan.

Glen Mary (S and P)—Fruit is large, firm, dark red, and of very good quality vines are of a beautiful dark green, sturdy and vigorous grower; very hardy and reliable; medium to late. This variety will pollinize itself but has not sufficient pollen for neighboring plants; by some it is classed as imperfect (P). Glen Mary should be in every commercial field.

Bubach (P)—Fruit large and handsome, roundish to conical, bright scarlet in color, moderately firm, of good quality; plant is a strong grower, with large, healthy, dark green foliage and very productive. Requires a rich soil, inclined to be heavy; very desirable for home use or near market; an old stand-by and is always in demand because of its size, color productiveness, and fine appearance; makes the required number of plants for a desirable row.

Wm. Belt (S)—Among the large size berries none are more uniform in shape and size than this variety, except the first berries to ripen, which are usually cocks-combed. It is also very firm and most excellent quality; color a beautiful glossy crimson. The fruit always brings the highest price in the market. The plant is a good, thrifty grower with strong roots and makes just enough plants for a good matted row without crowding. Its quality is fine and extra large size. Be sure and include this on your list.

Buster (P)—This comparatively new berry is a cross of Bubach and Sharpless. You all know Bubach and probably have often thought what a grand variety it would be if its few defects were corrected. Sharpless is old, but none the less one of the best. So the Buster seems to be Bubach with Sharpless correcting its faults, and, as is often the case, the offspring has much

improvement of both parents. It is pistillate, like Bubach, which it resembles. It has one of the most healthful and beautiful foliage among all the strawberries. It will stand more cold weather and hard treatment than any berry grown mid-season.

Senator Dunlap (S)—Midseason. Greatest all-around berry ever introduced. More of this variety planted than any other. Bears heavy crops of bright red, delicious flavored fruit. Of regular shape and size, always juicy and sweet; firm and one of the best shippers. Equally good for home use. Same as Dr. Burrill.

Gibson (S)—Best and most profitable sort for home and market. Plants are strong growers with long roots and abundant foliage, is exceedingly productive; berries extra large, fine flavored, dark, glossy red clear through. Same as Pocumoke.

Ridgway (S)—Plants large and stocky makes large number of strong, healthy plants. Leaf large, broad, heavy and dark green, blossoms perfect, a good pollinizer for pistillate varieties, berry large, form nearly round, color crimson, firm and will stand shipping to distant market, quality good, will command good prices, season late.

Premier (S)—The very best of all extra-early varieties. I have never found anything to equal it. Berries are large, beautifully formed, bright red through and through. It is delicious in flavor and a splendid shipper. I have fruited it three years and consider it the money-making king of all early varieties. It produces a very heavy crop and you should plant heavily, whether growing for home use, local market, or distant shipment. If Premier has any weak points, I have not found them and I advise all those in sections where early berries are in demand to include Premier, whether setting fifty plants or fifty thousand. I am going to plant heavily of Premier for fruit. That is my recommendation of it.

Collins (S)—A very heavy grower of beautiful foliage, healthy, and makes just about the requisite number of plants. It is a mid-season to late variety that has a very long season. It will stand as much frost as any variety grown. Its introducer claims it is the equal as a canner, of Warfield. It is a wonderful shipper.

Eaton (S)—Wonderful revelations are claimed for this new variety. This was introduced and is being extensively advertised by the same grower that introduced Collins. He claims it is wonderfully large in size, excellent in color, flavor, and everything that goes to make the greatest and most valuable strawberry ever introduced. He is a trustworthy man and I do not hesitate to recommend the berry as all he claims for it. Growth of vines is supreme in every desire. A heavy cropper of large berries of the darkest red, so it too must be a superior canner.

Bun Special (S)—We have had the opportunity of observing this new variety since its introduction and are convinced that it is one of the best varieties introduced within the last few years. The berries are a deep red clear to the center, have an excellent flavor, are evenly shaped and of large size, and present a beautiful appearance when packed for shipment. Plants are vigorous and prolific growers, making extra heavy picking rows. Order some this spring for a trial.

Magoon (S)—The great commercial berry of the Pacific Coast and the N. W. Luxuriant Vines. Mammoth dark red berries of the best flavor. Excellent for canning, fine for table use and the best shipper known.

Kellogg's Prize (P)—A very fancy late berry. Dark color, good shipper, fair plant maker. Very fine flavor. Fine for table and canning.

Mixed or Surplus Plants (S and P)—We have many "odds and ends" left over when packing, and always when digging, also every day when we "clean out" our packing house. They are the same and as good plants as we grow and sell on named varieties. If you are not exactly particular and can use any good variety we can give you more than your money's worth in the "surplus or mixed plants."

We cannot guarantee to supply any particular variety but will label true to name, and have concluded to supply these plants at \$3.25 per 1,000, 5,000 at \$3.00, 500 for \$1.75.

Chesapeake (P)—Chesapeake is about as well known at this time as any late berry on the market, and needs no description. It is one of our highest quality berries for either home use or market. Is a very profitable variety when the soil suits it. Does not make very many plants on ordinary soil. Needs good rich garden soil that does not dry out quickly. Many of our customers never fail to buy Chesapeake of us and always grow a good sized crop of plants and seldom have very many left. This season we have an exceptionally fine stock on new land and price is low for this variety.

Sample (P)—The berries are a perfect strawberry type, bright red in color, uniformly large in size, delicious in flavor and very attractive in appearance. The Sample is very productive and is firm enough to ship well. A heavy plant maker and the plants are large thrifty, and very hardy. A favorite for both home use and market. The Aroma makes a good fertilizer to plant with the Sample.

Marvel (S)—A heavy bearer of fine quality berries resembling Warfield but larger.

President Harding (S)—One of the finest new varieties. Bound to be one of the most desirable.

New York (S)—One of the largest known, good bearer. Healthy plants. Fine flavor. Especially desirable for near and home markets where it can't be beaten. A seller.

Delicious (S)—A new one from Maryland. Claimed to be the best and most highly flavored berry known. Large, sweet, good bearer, healthy grower. Seems to Jesse (S)—The old fashioned Jesse was hard to beat. Keep friends.

ASPARAGUS

No farm nor garden is complete without it and truly it is very little trouble or expense to raise.

Webb's Improved Palmetto—Until recently we believed that Conover's Colossal was the best sort grown, but we are forced to concede that Palmetto

is earlier, hardier, and a much better yielder. It is more even and regular in its growth. Eventually it will supersede all other varieties as it has been tested from one end of our country to the other and it has proved entirely successful everywhere. We have both yearling and two-year-old plants, raised on our own ground, and hope we will be able to fill your orders with our fine asparagus.

Martha Washington (Rust proof)—The Department of Agriculture at Washington, working in conjunction with growers and colleges, has through breeding and research produced a rust-resistant asparagus that is the equal in productiveness, size, and quality to any variety known. We have grown these plants from a quantity of seed from one of these government experimenters and it is genuine. My supply is limited to less than a hundred thousand, but I am making a very reasonable price. So much has been written in praise of it that I believe the above is enough here.

Gardeners can not afford to be without Martha Washington Rust-proof Asparagus. It brings the price.

ASPARAGUS SEED

Am offering crop 1924 Asparagus Seed at bargain prices: All seed post paid.

Martha Washington Rust-proof—1 lb. \$2.00, ½ lb. \$1.25, ¼ lb. 75c.

Palmetto—1 lb. \$1.00, ½ lb. 60c, ¼ lb. 40c.

Conover's Colossal—1 lb. \$1.25, ½ lb. 75c, ¼ lb. 45c. For one and two year roots see price list.

GRAPES

Of old, grapes were called "The food of the Gods," and so it is to this day. Who doesn't like them? They are nearest to a most perfect food of any fruit grown, and one of the most fascinating and desirable to grow both for pleasure and profit. We are located in the great Michigan Fruit Belt, and in some directions one can ride for hours through nothing but vineyards. These vineyards have been very profitable. The last twenty years have seen fortunes made growing grapes.

Wodruff's Red—A very desirable, large, red grape of good quality.

Campbell's Early—Early enough to bring in the first crop money. Needs good soil. Large berry and cluster. In demand.

Catawba—Large, red, good grower, prolific, ripens late. An excellent keeper after harvested. Market demanding it.

Concord—The best black-purple grape grown. It is the commercial grape of all temperate latitudes—a strong, healthy robust grower that has stood 40 degrees below zero without injury; a good shipper, heavy bearer, having been known to produce ten tons per acre. Unexcelled as a table or hand-eating grape; a splendid canner and shipper, being sweet, juicy, and delicious. It is the leader for making grape juice and wines. Over 70 per cent of the grapes of the fruit belt are Concord.

Delaware—Small, red, delicious, a very popular eating grape; commands a good price on the market; hardy.

Worden—A purple-black grape, seedling of Concord, which it resembles. It is a week earlier than Concord, perhaps a little sweeter, and of a delicious flavor. It is not so good a shipper as Concord, but is splendid for table use, canning, grape juice, and a leader on near markets.

Niagara—The best white grape hardy, good grower. It is a beautiful, waxy, creamy white in color; bunches are large, ships well. It is probably the most fancy table grape. Its flavor is delicious—sweet and satisfying; grows in popularity each year and commands the highest prices of any grape. It is a splendid, thrifty grower, and not delicate. This variety will not be overet.

Moore's Early—Another fine, early black-purple grape; a little earlier than Concord; resembles it except in flavor; well liked; good for all purposes.

Brighton—Probably the most popular red grape. Satisfies any one by its fine flavor, large bunches, and general appearance.

Agawam—Here is a grape that has few equals for a fine table grape.

Set Grapes for Profit. Let us sell you the vines. We are probably the largest growers of grapevines in Michigan and are supplying many of the large nurseries with vines. Buy directly from the grower.

CURRENTS

There is good money made growing currants for market. They can be sold partially ripe, or very ripe. They hang on the bushes a very long period, giving one a wonderful opportunity to harvest. The markets in the cities are seldom supplied. We offer best varieties only. Most profitable of small fruits.

Black Naples—Best black, large, good, and popular—

Wilder—Medium-sized, red currant, a good bearer, and good for every purpose. Hardy canes, easy to pick.

London Market—This is the best red currant grown. About the heaviest bearer of exceedingly juicy and pulpy fruit. When picking you can literally rake them in. Records have been made of \$500 per acre here in the fruit belt, growing London Market. Large, hardy-growing bushes.

White Grape Currant—Best white. Large pulpy, actually sweet, yet slightly acid. Good for all purposes. Best canner, and a profitable market currant. You will have no competition in growing a field of white or black currants.

Fays Prolific—This currant is perhaps a little larger than London Market but not so good. Stems of fruit are large, berries are uniform in size and easily picked.

RASPBERRIES

Black, Red, Yellow, and Purple.

Cumberland—The business blackcap; large, good quality, free from disease. Prolific. Everyone likes it.

Gregg—A grand black-cap; large, late, hardy, prolific; a good shipper. Popular.

Columbian—This is the best purple variety; hardier than any other; a cross between the red and black. Profitable to grow. The best pie and canning raspberry known.

Cuthbert—Red—King of the market; large, medium late variety; prolific; of fine quality; very hardy, none better.

King—Extremely early, prolific variety of much value; one of the best red kinds.

St. Regis Everbearing—Popular everywhere, as good as Cuthbert for June crop, and always produces more than half a crop in September of fine, large berries of good quality. In greater demand than any other raspberry.

Golden Queen—Yellow raspberry. Very much like red varieties except it is yellow; a valuable addition to the raspberry family. Good in every way.

Plum Farmer—This raspberry is a native of northern New York and supposed to be something extra.

However, we find it very much like Cumberland. It is a business black-cap anyhow and excellent in every way. Same season as Cumberland.

BLACKBERRIES

Eldorado—Has more good points than many kinds; good size, ships well; bears abundantly; black, melting, sweet, and rich; very hardy.

Early Harvest—Heavy bearer, but early and has the delicious flavor of a wild berry.

Mercereau—About the same as Eldorado; fine, hardy, good in every way and large.

Wilson—The old quality stand-by; good. You couldn't do better. Heavy cropper of fine, round, sweet berries.

DEWBERRY

The Lucretia is the very best variety; large, sweet, jet black; heavy yielder; a very profitable berry.

ELDERBERRY

Adams Improved—A new fruit, perfected from the common elderberry. Everyone likes elderberry pies, jams, wines, etc., but the only way to get them has been to chase the dusty roads or fields. This is an improved variety; the berries of which sometimes measure nearly one third of an inch in diameter. The berries are not only larger but finer in every way than the wild variety. Try them.

SEED POTATOES

This is the year for you to change your seed.

Irish Cobbler—The best standard white, early potato; very productive; round and smooth. Price, \$2.50 per bushel; one-half bushel, \$1.50.

Hundred Fold or Improved Rural—The most popular late white potato; round, smooth, even size; heavy yielder of good-keeping, good-quality tubers. None better. Sacked free. Price per bushel \$2.00; one-half bushel, \$1.00.

Early Ohio—These are a pink potato of medium size and good quality, extra early. By some they are called a six-weeks potato—that is, six weeks after they set, potatoes are ready for use. One of the best. Price \$2.50 per bushel; half-bushel, 1.50.

Petoskey Russet Rural—This is the new great potato of the great northern Michigan potato region. It is sound, smooth, clean, a vigorous grower and a heavy yielder of tubers of the highest quality. They are a quick-growing, main-crop potato. Three-fourths of the Michigan potato crop are of this variety. It gains in favor everywhere. The best shipping potato known. Price \$2.00 per bushel, half bushel, \$1.00.

The four varieties of potatoes we offer are grown from certified seed and this should be an inducement for you to get something good.

Horseradish—We offer the Large Improved. It is the very best for market and home use.

Sage—Holt's Mammoth, a vigorous grower. Large, tender leaves. Very hardy. The best.

Rhubarb—I offer only Early Queen. It is the tenderest, largest, and quickest growing variety on the market, best for canning, market, or home use.

EVERGREENS

Evergreens—They give as much beauty to the earth as flowers. Our list is not large, but on what we have we can save you money. All trees packed in a ball of earth and wrapped with burlap, for 25c each extra. On large sizes it pays, and our charge just pays for the work.

Norway Spruce—"The Evergreen Eternal."—The best of them all for beauty, size, quick growth, hardiness, and windbreaks. Dark green. 8 to 12 inches, each 50c; 10 for \$3; 12 to 18 inches 75c each; 10 for \$6.

Hemlock Spruce (or just Hemlock). One of the most beautiful grown. Light green, feathery, a good grower. Price, 8 to 12 inches, \$1; 10 for \$3; 12 to 18 inches, \$1.25, 10 for \$10.

Red Cedar or Virginia Cedar—Will grow in shade or on very poor land or rocky sandy soil; quick grower and a beauty; has a reddish cast. 8 to 12 inches, 40c, 10 for \$3; 12 to 18 inches, 50c, ten for \$4; 2 to 3 feet, \$1 each; ten for \$6. Easy to grow.

American Arbor Vitae or White Cedar—Close, compact, quick grower; fragrant and beautiful; fine for hedges or single specimens; will grow in wet places where no other evergreen will grow, and grows just as well on high land, grow anywhere. Price—8 to 12 inches 20c each 10 for \$1.50; 12 to 18 inches 50c each, 10 for \$3; 18 to 24 inches, 75c, 10 for \$5.

White Pine—The distinctly American pine, the most useful pine grown—quick grower—easy to grow; 6 to 8 inches 25c, 10 for \$2; 8 to 12 inches, 50c, 10 for \$4; 12 to 18 inches 75c, 10 for \$6 (can not ship west of Kansas City).

Colorado Blue Spruce—"The lawn spruce;" very dark blue-green a slow grower—8 to 12 inches \$1, all we offer. The small ones grow better.

American Larch—"The deciduous conifer evergreen." A beautiful, quick-growing tree. Should be in every yard—2 to 3 feet, 75c; 12 to 18 inches 50c; 3 to 4 ft., \$1. Easy to grow.

SHADE TREES

Catalpa—Here is a wonderful tree—hardy, a quick grower, fine shade, clean foliage, and of a stately form. It has a subtropical appearance and bears dense masses of large white flowers about the first of July. Besides its shade and beauty it is valuable for lumber and fence posts. Planted in groves it grows tall and straight. Being extensively planted. Bargains on these. 8 to 10 ft. \$1, 6 to 8 ft. 75c, 4 to 6 ft. 50c, 3 to 4 ft. 25c. Ten of any size at half the prices quoted.

All fine, strong, thrifty trees, the kind you want to set.

Golden Willow—Weeping, 75c each, 5 for \$3.25.

American Hard or Sugar Maple—8 to 10 feet \$1, ten for \$8; 6 to 8 feet 75c, ten for \$6.50.

American Elm—8 to 10 ft. \$1, ten for \$7.50; 6 to 8 ft. 75c, 10 for \$6.50.

Soft Maple—"The quick grower." 6 to 10 ft. 75c each, 10 for \$6.50.

Norway Maple—The Beautiful Tree. 8 to 10 ft. \$2, ten for \$17.

Silver Maple—6 to 8 ft. 75c, ten for \$6.50.

American Ash—6 to 8 ft. \$1.

White Birch—Large growing. White trunk and limbs. graceful, beautiful, hardy. Each \$1.50; smaller \$1.00.

Whitewood or Tulip Tree—A beauty—5 to 7 ft. 75c, 7 to 8 ft. \$1, 8 to 10 ft. \$1.25, ten of either size at 25c per tree off.

American White Birch—The prettiest lawn tree—4 to 6 ft. \$1, ten for \$8.

Mountain Ash—5 to 7 ft. \$1.25.

Weir's Cut-leaved Weeping Maple—6 to 8 ft. \$1, 8 to 10 ft. \$1.25, ten of either size 25c per tree off.

Catalpa Bungii—(two year head)—The low-headed weeping catalpa, \$1.50 each.

Ash-leaved Maple or Box Elder—4 to 6 ft. 50c, 6 to 8 ft. 75c, ten at 15c per tree off.

"VICTORY" shade trees please our customers.

SHRUBS

All shrubs are field grown. Heavy two and three years old, depending upon variety, are very thrifty and large. Do not mistake these large heavy shrubs for the little cheap things offered by department stores, seed catalogs and others at 25c and 30c each. Those shrubs at that price are small one year as follows:

One year shrubs of all kinds at one-half the price of these listed two and three years old. These will grow well but we would rather sell you a good big shrub. This one-half price offer of one-year is good on all vines except Kamona, Henryi and Jackmani clematis.

Althea of Rose of Sharon—Red, white, pink, blue. These are very hardy, desirable shrubs, and please almost everyone; can be grown in shrub or tree form. Bloom from July till October. Flowers vary in size—are two to four inches in diameter. Price 50c each, 12 for \$5.

Weigelia Rosea—One of our very fine, hardy shrubs, a medium size, thrifty grower. Blooms in early mid-summer. Color is rose pink. 50 each, 12 for \$5.

Weigelia Eva Rathke—Same as Weigelia Rosea except blooms are very red. It is a very beautiful shrub. 50c each.

Lilac—White—Everyone knows a fine lilac. Price 40c each, 15 for \$5.

Lilac, Pink—A very fine lilac, delicate and rare. 75c each, 10 for \$6.

Lilac, Purple—The old standby. 40c each, 15 for \$5. **Calycanthus**—The popular sweet-scented shrub. Blooms in June to July, a very dark maroon-chocolate flower. A branch will scent a room for days. Sub-tropical, but very hardy. 50c each, 12 for \$5.

Spirea Bumala—This is one of the most desirable of the spireas. Loves a damp, rich soil. Its beautiful spikes of light pink blooms begin in May and continue all summer. Shrub is medium size. Price 50c each, 12 for \$5.

Spirea Billardi—A dense, upright growing shrub producing long spikes of dark, rich pink flowers which stand high above the foliage, and blooms continuously from July to October. 50c each, 12 for \$5.

Spirea Anthony Waterer—A low, spreading bush with pretty foliage that produces rich crimson-red blossoms during all the latter part of the summer. Fine for borders, hedges, or single specimens. A favorite. 50c each, 12 for \$5.

Spirea VanHouttei—The grandest of all Spireas, forming a very graceful, pendulous shrub five feet high and a fountain of pure white blooms in May and June. Fine for screens to walls, or single planting, you can't set it wrong. This is the Spirea we give free with each order of \$3 or over. Price 40c each, 10 for \$3.50, 100 for \$25. Here is where the neighbors should club in for 100. Small ones 25c, 7 for \$1.

Forsythia Fortunei or Golden Bells—Blooms in spring before any other shrub; very attractive with its array of bright yellow blossoms. Price 40c, ten for \$3.

Syringa or Mock Orange—A large, strong-growing shrub. Pure white blossoms in June. Very fragrant. Everyone likes this. Price 50c each, 5 for \$2.

Snowball—Too beautiful and well known to need description. May to June. Grand, that's all. Price 50c each, 10 for \$4.

Hydrangea P. G.—White, changing to pink, mammoth blossoms last for months. Hardy, showy, fine in every way. Blooms in August and September. "Loads of Bloom." Desirable. Price 50c, ten for \$4.50.

Cornus or Red-Twigged Dogwood—"The Winter's Beauty." In summer its foliage and blossoms are attractive, followed by a blue berry; but its beauty is after frost denudes it of foliage, when its shining red canes are attractive and beautifully decorative. Requires rich soil. Should be in every collection. 40c, 15 for \$3.

Japanese Quince—Blooms in May. Pink, very pretty, fragrant. 50c.

Buddelia—The Butterfly Bush—July, August; semi-herbaceous; large flowers; resembles lilac. 40c, ten for \$3.50.

Hydrangea Arborescens—"Hills of Snow."—Hardy, July and August. Some like it better than H. P. G. 50c each, 12 for \$5.

Tamarix—Hardy, strong, slender growing shrub, with feathery foliage, and small delicate pink flowers. Has graceful drooping branches. Dark red bark. 50c each, 10 for \$3.50.

Tree Hydrangea P. G.—These are grafted but hardy and desirable. Very showy. In two prices only, medium size 75c, large \$1.

Japanese Snowball—Erect, compact, with purple tinted corrugated foliage. A solid mass of white in June. Different than our native snowball.

Barberry—Thunbergii, Japanese—Dwarf in habit, stands all kinds of soil and shade well. Fine for borders, hedges, and screens to low walls. Bush grows with a reddish cast, foliage and twigs changing to a maroon red in autumn; also beautiful for its load of red berries, and desirable for single plantings. This is not the barberry that spreads wheat rust. Price, large plants, 3 years, 50c, ten for \$4. Smaller plants for hedges 30c each, 10 for \$2.50, 100 for \$20. Also have smaller ones.

Amoor River Privet—North—The hardiest privet grown. The best for northern latitudes. Is not subject to blight and is by far the best of the privets for hedge planting. Can be sheared to give any desired effect. Plant 8 inches apart. Prices, 24 to 30 inches well branched 20c each, 10 for \$2, 100 for \$15; 18 to 24 inches, 15c, ten for \$1.50, 100 for \$10.

California Privet—This is the most beautiful plant or shrub for a hedge in existence. No other plant will equal it, as it becomes more beautiful each year. A quick, strong-growing shrub, yet easy to control, by use of shears, to any desired shape. Price (reduced) large two-year-old plants, 24 to 30 inches, well branched, each 20c, ten \$2, 25 \$4, 100 \$10; 18 to 24 inches 10c each; ten 75c, 100 \$6.

Honeysuckle—Pink Tartarian—Erect grower whose pink flowers, late in spring, contrast beautifully with its bright green foliage. In autumn the orange berries cover the plant. 50c, ten for \$4.

Honeysuckle—White Tartarian, desirable; delicate bluish-white flowers; wins favor in every spot it fills. About the same as Pink Tartarian except color of bloom. Price same as Pink.

Golden-Leaved Elder—Desirable for its golden foliage. Price 50c, ten for \$3.

Aurea or Golden Weigelia—Has golden leaves. It also blooms. Hardy and thrifty grower and a thing of beauty. Its foliage is very conspicuous and bright and attractive. This shrub is something different—50c each, 10 for \$3.

Cornus Florida—A thrifty growing, large shrub; stands trimming well; blooms late in spring; has large, pinkish blossoms, two to four inches in diam-

eter, fragrant, and very showy. These shrubs are scarce and desirable. 50c each.

Snowberry—A fine upright shrub 2 to 4 ft. high in growth. November and December finds it heavily laden with great clusters of large white berries that hang all winter. Most desirable. 40c each, 10 for \$2.50.

Coral Berry (or Red Snowberry)—Like Snowberry only red berries not quite so large. Bush grows the same. Valuable. 40c each, 10 for \$2.50.

FLOWERING AND DECORATIVE VINES

Large, strong, two and three-year-old plants that have always pleased everybody and will please you. 50c each, 10 for \$4.

Boston Ivy (or *Ampelopsis Veitchii*)... Beautiful, hardy Japanese variety, the hardest of climbers, for covering brick, stone, or any other wall or building. It will cling to the smoothest surface, evenly, and cover everything with an even mass of fresh, damp green in summer. Its foliage hangs late into autumn and attracts attention by the beauty of its autumnal colors.

Wisteria—Purple. Has large, double clusters of purplish-blue flowers; a rapid grower, free bloomer, very hardy, attractive, and desirable for porches, screens, fences, or for other coverings.

Wisteria—White. Like the purple in every respect except the color of large clusters of snow-white blooms that are extravagant in their beauty.

Hall's Japanese Honeysuckle—This is the most beautiful and delicate hardy climber known. It is evergreen, thrifty, and bloom-covered, of much fragrance. Everyone likes it.

Trumpet Vine—Red, large, fragrant blossoms; hardy; winds about a porch trellis, fence, or any other object old fashioned but desirable for many purposes.

American Ivy—This is a native vine of beautiful green, changing to rich scarlet in fall. After leaves fall it is covered with a mass of blue-black berries; will cover walls, porches, buildings; hardy.

THE FOUR POPULAR CLEMATIS

Clematis Paniculata—Blooms in August and September. Slender, vigorous climber; highly prized for its great masses of fine, delicate white blooms very fragrant, extremely hardy, and prized by everyone who loves a thing of beauty. Price (special) 50c each, three for \$1.25.

Clematis Ramona—Large, star-shape flowers; a perpetual bloomer throughout summer and fall; color—deep, rich lavender-blue. It is a strong rampant grower; needs rich soil. Always desirable; 75c each.

Clematis Henryi—Creamy white; large and of fine shape; a free grower and bloomer. Price 75c each.

Clematis Jackmannii—Large flowers, intense violet color, free bloomer. Beautiful foliage, very popular. Price 75c each.

EVERBLOOMING ROSES

Do not overlook the Hybrid Perpetual Roses—the everblooms. During June and July they are at their best, but at intervals until frost—all the autumn these lovely roses are brilliant with large perfumed flowers of the richest colors. Our list is not extensive, but we are offering you the most desirable and best that are to be had. Include a few of them in your order. Roses are the most perfect of all flower creations.

Hardy Perpetual and Standard Roses—All two-year-old field grown. Price each 50c; ten for \$4.50.

Persian Yellow—Not an everblooming but a very fine yellow rose, probably the best yellow rose.

Gen. Jacqueminot—Called "General Jack" for short. Crimson red, a profuse bloomer all the summer and fall. Don't miss it.

LaFrance—Large, pink, hardy, very showy, a profuse bloomer.

Magna Charta—A long-season bloomer and very desirable; carmine pink. This will please.

Paul Neyron—One of the most popular continual bloomers; a large, full bloom deep rose pink. Not infrequent to have bloom as large as a saucer.

Madam Plantier—Not a fall bloomer but one of the hardest and most beautiful white June roses, grows anywhere.

Prince Camille de Rohan—A deep maroon of velvet-like texture. A frequent bloomer and always very admirable.

Clio—Flesh color, always of good size and one of the best.

Coquette of the Alps—Blush-white, strong grower; blooms almost constantly.

Frau Karl Druschki—Snow Queen—Best white, a constant bloomer, very hardy. Don't leave it out of your collection.

Mrs. John Laing—Soft pink, very fragrant, blooms throughout the season. Also noted for its profuse and beautiful buds.

American Beauty—Best known continual bloomer; crimson needs winter protection.

BABY ROSES

All Baby roses are 60c each, 10 for \$5.50.

Baby Dorothy, pink.

Baby Rambler, crimson.

Baby Rambler, red.

Baby Rambler, white.

Baby Rambler, yellow.

There are still others in the Baby or dwarf rose class, but these are the most popular and successful.

RAMBLERS AND CLIMBERS

The Roses that everyone loves—always very showy.

Climbing American Beauty—Reddish pink, hardy, one of the most beautiful and persistent climbers.

Climbing Sunburst—Rich yellow tinted coppery orange. Everyone likes it.

Crimson Rambler—Deep crimson. The original and most beautiful Rambler. Hardy, showy.

Dorothy Perkins—Clear, light pink.

Flower of Fairfield—The everblooming crimson rambler; very crimson. Don't miss it. Hardy, showy, desirable.

Queen of the Prairie—The hardest rosy-red climber. Free from disease and pests, showy.

Blue Rambler—A novelty, but good.

White Dorothy Perkins—Growth and habits like Dorothy; very desirable; produces great clusters of white blooms.

Excelsa—Red Dorothy Perkins. A grand one.

Thousand Beauties—Blooms rosy carmine—pink. Showing many different shades of coloring. Clusters large. Flowers large, free from thorns.

Dr. W. Van Fleet—This is indeed a wonderful rose; soft shell pink; very large, full, high, and measures four inches in diameter. Borne on long, sturdy stems. Foliage a fresh green color, gradually changing to a bronzy hue. Extremely hardy.

American Beauty (Climbing)—A very strong, vigorous grower, will grow anywhere; the early fragrant flowers a deep rosy carmine-crimson.

Prices of 2 yr. Havly bushes are 50c each. 10 for \$4.50.

THE LEADING HARDY PERENNIALS

Live out of doors without protection, as hardy as

grass. They were the pride of our grandmothers' gardens. Are showy, fine for cut flowers, because so lasting, easy to grow, and everything; are the best and cheapest flowers you can buy.

Japanese Iris—Largest Iris, bloom late after other Iris are gone, assorted colors mixture. 15c each, 7 for \$1.00.

German Iris—We have these in white, gold crimson, variegated, purple etc. Named colors 20c each. Mixed 10c each. 12 for \$1.

Lily of the Valley—10c each, 7 for 50c.

Shasta Daisies (Burbank's)—An improved type of the Chrysanthemum family. Having immense blooms of pure white flowers, three to four inches across on long, strong single stems. A fine cut flower, showy, easy to grow. Blooms nearly all summer. Special offer 10c each, 7 for 50c, 15 for \$1.

Perennial Sweet Pea—15c each, 7 for \$1.

Golden Glow—10c each, 12 for \$1.

Boltonia—10c each, 12 for \$1.

Sweet William—10c each, 6 for 50c.

Phloxes—Nothing can beat them for showiness, range of colors, length of blooming season and hardiness—white, red, pink, variegated, etc. By colors 20c each, mixed 15c each, 7 for \$1.

Hollyhocks—Double. Mixed colors 25c each, 5 for \$1.

Hardy Aster (or Michaelmas Daisy)—Bloom in Sept. and Oct., are showy. There are three colors—white, pink and lavender. Hardy, easy to grow. Everyone should grow them. 20c each, 10 for \$1.50.

Tritoma Pfitzeri (Red hot poker or flame flower)—30c each, 3 for 75c.

Anemone—Assorted colors, 25c each.

Yucca Filamentosa—A beautiful tropical looking, hardy plant, 20c each, 3 for 50c.

Mellow Marvels—This is the most valuable, showy and desirable of the hardy plants. Make clumps 5 to 6 ft. tall, 3 to 4 ft. across. Blooms 4 to 8 inches across. Colors are white, pink and red. 30c each, 4 for \$1.

Canterbury Bells—20c each.

Hardy Larkspur—20c each.

Digitalis or Foxglove—20c each.

HARDY CHRYSANTHEMUMS

The Thanksgiving Flower

Mixed, each 20c, 6 for \$1.

By color 25c each, 5 for \$1.

Golden Ball—Large double yellow.

Snowball—Victoria. Double white.

Peony Chrysanthemum—Double pink.

Fireball—Red, double.

"Baby Mums" or **"Button Mums"**—Small blooms. White, bronze, pink, yellow. 25c each, 5 for \$1.

NUT TREES, ALSO SHADE

Beech Nut—These are wonderful shade trees as well as nut trees. Beechnut trees are prolific bearers. Price, 4 to 6 ft. 75c, 6 to 8 ft. \$1. 10 of either size at 25c per tree off.

American or Black Walnut—Well known; grows anywhere. Small trees, 1 to 2 ft 25c each, 10 for \$2, 100 for \$12, large 5 to 6 ft. \$1 each.

Butternut—A very desirable nut tree, hardy and a young prolific bearer; nut is oblong in shape and of excellent flavor. There is money in walnuts and butternuts, also in lumber from the trees; 2 to 4 foot trees 50c, 4 to 5 ft. \$1.

APPLES

We are offering bargains in one year trees in three sizes. Many planters prefer one-year trees, or medium 2-year in place of larger trees. Others will have nothing but large trees—so there you are—buy what you want.

Prices—One year trees:

Large size 30, 10 for \$2.50, 100 for \$22.50

Medium size 25c, 10 for \$2.00, 100 for \$20.00

Small size 20c, 10 for \$1.50, 100 for \$14.00

Two year trees:

Large size 50c, 10 for \$4.75, 100 for \$45.00

Medium size 40c, 10 for \$3.75, 100 for \$35.00

Small size 30c, 10 for \$2.50, 100 for \$22.50

We are not going to give a lot of long descriptions, as everyone knows apples, but if anyone wants information as to varieties we will be glad to write you all we can.

We give the best varieties for summer, autumn, and winter.

Summer Apples—Yellow Transparent, Duchess of Oldenberg, Red Astrachan, Yellow Harvest, Sweet Bough.

Best Autumn Apples—Maiden's Blush, Fall Pippin, Wealthy, Gravenstein.

Best Late Autumn and Early Winter Apples—McIntosh, Snow or Fameuse, Wealthy, Grimes Golden, Hubbardston, Wagener, Jonathan.

Best Late Winter Apples—N. W. Greening, Delicious, Baldwin, Canada Red, Tallman Sweet, King, Rome Beauty, Rhode Island Greening, Winter Banana, Northern Spy, Fallwater Rambo, Ben Davis, Golden Russet, Gano, Stayman's Winesap, York Imperial, and Delicious Michigan Golden.

PEARS

Prices of Pear trees:

Large trees 80c, 10 for \$7.50

Medium trees 60c, 10 for \$5.50

Smaller trees 45c, 10 for \$4.00

Bartlett—The standard early pear for all uses.

Clapp's Favorite—Late summer. Good in every way.

Flemish Beauty—Another well liked, good all round pear. A little earlier than Bartlett.

Seckel-Worken—Small sweet, sometimes called sugar pear. Good. Last of September.

Kieffer Pear—Late fall and winter. Good keeper. Best canner. Blight resistant. Hardy. Grows where other varieties fail. Price, large trees 60c each. Medium 50c. 10 at 20c off.

CRAB APPLES

Whitney Crab—One of the best. Good size, color, flavor and bearer. Liked by most every one to eat out of hand. Best known for jelly.

Hyslop—Fruit large, produced in clusters; rich, dark red color; very hardy and vigorous. Best to set for market.

Transcendent—Taking the United States over, probably this fine red-splashed crabapple is the leader. Very hardy, easy to grow, young bearing.

Price of Crab Apple trees—Large 60c, medium 50c, smaller 40c. If wanted by 10 of a kind 5c per tree less.

PLUMS

Price of all plum trees, 4 to 5 ft. 90c each, 3 to 4 ft. 75c each, ten for \$7. Best varieties only.

Lombard—Best commercial and home-use plum grown; prolific bearer; fruit of a reddish purple, of high flavor, none better. Early September.

German Prune—An excellent plum, fine for market, canning, or drying as prunes; purplish; medium size.

Green Gage—Good; fine flavored; yellowish green.

Bradshaw—Large, purplish red; fine for market and good for every purpose.

Abundance—Early red; fine flavored, largely set for early market.

Blue Damson—Small but of high quality; old and good; hardy, heavy bearer, and one of the best market sorts.

Burbank—A little later than Abundance; bright cherry red, of good size and fair quality; hardy, prolific, young bearer, popular all around sort.

Shipper's Pride—Large, dark purple, very showy, a bountiful bearer and valuable variety; fine, juicy, and good.

Monarch—A large, late, purple plum; young and prolific bearer; a good shipper.

QUINCES

Orange—One of the best for home use or market; golden yellow, flesh firm, excellent flavor, good bearer.

Champion—Large, good shape, somewhat like an Orange; culinary and keeping qualities good, bears young.

Prolific—Not so large but a young, early bearer, and prolific; of good quality.

Price of quince trees—

SOUR CHERRIES

These are the money-makers. Cherry orchards in Michigan have made some handsome profits the past few years, and cherry-tree setting has not kept pace with the population of the country. We have tried everything in the cherry line and only two are worthy among the sour cherries to space in any cherry setting. There are many good, profitable sweet cherries, however.

Early Richmond—Best early cherry, much like Montmorency, except perhaps a little smaller and a few days earlier; bear young and very abundantly; best home canner and pie cherry that grows. Sells well on all markets.

Montmorency—Large, late, heavy cropper of dark-red cherries. Thick-meated and juicy, yet the best shipper known. Its size and flavor as well as general appearance make it the leader everywhere as a late cherry. Tree a good grower, hardy and healthy. Our advice is, set this wonderful Montmorency for profit.

SWEET CHERRIES

Bing—Very large, dark red; large, fine quality; trees are hardy and prolific.

Gov. Wood—A large, light yellowish cherry, excellent flavor. Ripens in June and generally liked.

Black Tartarian—A favorite everywhere; large, purplish black, firm flesh, fine flavor.

Windsor—Of Canadian origin, noted for its hardiness of both tree and bud, and its abundant bearing. Cherry is large, dull red, always a money-maker. Best quality.

Price of Trees—Both sweet and sour cherries—4 to 5 feet trees 60c each. 10 for 55c each. 100 for 50c each. Stocky, 4 to 6 ft. trees, at 75c each, 10 for \$7; 100 for \$60.

Our trees are fine and must please you. Write us when interested in very large quantities.

RUSSIAN MULBERRY

The hardest and most abundant bearer of the different Mulberries. The only one really worth setting. Good trees, 75c each.

PEACHES

Elberta—The leader everywhere—large, yellow, late.

Early Crawford—Early, excellent quality, yellow.

Kalamazoo—Heavy bearer, yellow, late, good quality.

Champion—White, large, fine flavor, early.

Admiral Dewey—One of the earliest yellow. Good quality. Semi-cling.

J. H. Hale—Popular, yellow, late, large. Fair quality.

Mathews Beauty—Two weeks later than Elberta. Yellow, good.

Niagara—Medium season. Yellow, heavy bearer, fine quality.

Crosby—Yellow, abundant bearer, fine quality. Bears when others freeze.

New Prolific—Early, yellow, good bearer. Fine for home use and market.

Late Crawford—One of the best late yellow in every way.

Gold Drop—Yellow, good bearer, late. Best quality.

Engle's Mammoth—Yellow, good quality, good bearer.

Leamon Free—Yellow, like Gold Drop. Best quality.

Rochester—The best early yellow peach, claimed to be the same as the new South Haven. As far as I can see there is no difference. As good in every way as Prolific and as early as Dewey. Some wonderful profits have been made from Rochester and South Haven orchards. Yellow, heavy bearer, very early.

Prices of all Peach Trees. All peaches offered are free-stones, except Dewey clings only a little. Only one white peach offered, Champion. Large No. 1 trees, 35c each. 10 of one kind for \$3.00; 100 for \$28.00. Medium trees at 30c each. 10 trees of one kind \$2.50; 100 for \$23.00.

We are selling everything as low as we possibly can and give you good reliable true to name, and good size stock.

PAEONIES

The paeony is with right the noblest and at the same time the most popular and beautiful and serviceable hardy outdoor flower. They increase in beauty and size each succeeding year. Did you ever see a bed of a dozen fine paeony plants that was not someone's pride and the talk of the community?

Felix Crousse—The most popular red Paeony. A profuse mid-season bloomer. Color most pleasing velvety red, fading to lighter shades; 65c each; 3 for \$1.50.

Festiva Maxima—Pure white, very large, full double bloom; petals are very broad, plant is vigorous. One of the best and most showy. Very large. Price each 50c, six for \$2.50.

Hummei—This grand paeony produces hundreds of immense carmine-pink blooms in a very graceful manner. It is very late and very hardy. Price each 50c, 6 for \$2.50.

Andre Lauries—Very late, solid red, healthful robust grower, showy, and very hardy; always popular. Price 60c, six for \$3.00.

Francis Ortegat—Produces a heavy load of large showy deep crimson blossoms that attract and please the most discriminating eye. The plant grows a wealth of foliage as well as a profusion of blossoms. Perfectly hardy. Mid-season. Price each 50c, six \$2.50.

Mixed Paeonies—All the above colors and varieties also others that we are not naming. When mixed paeonies are ordered we do not guarantee colors, but our customers are always pleased. Price each 25c, 5 for \$1.25 for \$4; and if you love paeonies don't pass this offer by.

Superba—This is the famous Decoration day Paeony. A beautiful, bright, clear pink with silvery reflex. Seldom misses bloom by Decoration day. Price each 40c, six for \$2.

PLEASE VISIT OUR NURSERY

You are invited. Thousands come every year from Cleveland, Detroit, Flint, Toledo, Indianapolis, Grand Rapids, Muskegon, Milwaukee. Take your plants and trees home with you. We are at your service.

J. G. Prestage, Proprietor.

DAHLIAS

Dahlias are one of the most beautiful of flower creations. Perfect, bright, clean, really cheerful, they are beautiful and hopeful beyond comparison. Note our reduced prices. We wish every customer to start a bed this year.

Cactus Dahlias—These are the exquisite and delicate ones. We offer them in true colors: Dark red, pink delicate, orange, yellow, bronze, white, lavender.

Pom Pom—Double Dahlias. Red, yellow, white, pink, variegated, maroon, orange, buff.

Show Dahlias—Double quilled. Pink, yellow, lavender, orange, white, garnet, buff.

Decorative Dahlias—White, pink, maroon, lilac, red, yellow, salmon.

Prices of Cactus, Pom Pom, Show, and Decorative Dahlias. Everyone a fine tuber and a growing eye, each 25c, \$2.50 per dozen.

A few Named Varieties and Prices—Jack Rose, dark red, 25c each; Golden Stipend, yellow, red and pink tips, large and showy, 50c each. Detroit White, 15c each. Dreer's White, 25c each. White Rochester, 25c each. Red Flame, large, fluffy, red, 25c. Hussar Red, 15c. Wine Red, 15c. Pink and White Apple Blossom, 10c. Lavender Ball, Double, 15c. Amber Queen, 25c. Golden Queen, 15c. Golden Fairy, 20c.

Mixed Dahlias—Here is where you get your money's worth. Each 10c, 12 for \$1, 25 for \$1.75. If you do not care to bother with named varieties you will find this mixture a superfine one. All colors—this is the way we like to set them.

DWARF APPLE TREES

For those with town lots the dwarf is not only practical but profitable and delightful. Bears young, of best quality fruit. Trees grow 4 to 6 ft. Not a novelty but a necessity.

Varieties—Yellow Transparent, Red Astrachan, Wagner, Spy, Pound Sweet, Jonathan, McIntosh, Greening, Duchess, Wealthy. Price—Medium 75c; Large trees, \$1 each.

Dwarf Pears—Bartlett only. They will please and amaze you. Price \$1 each.
